

KEVIN MILLER, P.E.
ASSOCIATE
CIVIL ENGINEER

PROJECT EXPERIENCE

Water Line Construction Projects, North Richland Hills, TX – Project Manager for the design of approximately 500 LF of 8" water line and 3,000 LF of 12" water line.

West Pipeline Road Reconstruction, Hurst, TX – Project Manager for the design of 2,000 LF 4-lane divided roadway to include lowering and or relocating water, gas, telephone, primary electric and storm drain facilities, new signal light and coordination for the installation of new landscape and sidewalk treatments.

Parkview Hills 4, Fort Worth, TX – Project Manager for the \$1.5 M, 137 Lot subdivision along Marine Creek. Phases 4A & 4B included streets, drainage, water, sewer, mass grading and floodplain reclamation.

Innisbrook, Fort Worth, TX – Project Manager for the \$1.5 M, 151 Lot subdivision along a tributary to Marine Creek. Phase 1 included streets, drainage, water, sewer, mass grading, COE 404 Permit, Floodplain reclamation, pond and spillway design.

NCR Collision Center, Keller, TX – Project Manager for the site design of a 2 acre commercial development. This project included site layout and design, drainage, water and sewer improvements and detention pond design. The project also included coordination with downstream property owners.

Lowery Park, Fort Worth, TX – Project Manager for the \$1.4 M, 146 Lot subdivision. This project included streets, drainage, water and sewer improvements. The project also included ground water remediation and several large retaining walls. The total storm drain cost was \$500,000.

Creekwood Estates, Fort Worth, TX – Project Manager for the \$1 M, 53 Lot subdivision. This project included streets, drainage, water, sewer and floodplain & floodway revisions. In addition to the project LOMR, this project included a pre-project LOMR for Mid Cities Boulevard which Euless had never prepared. The total storm drain cost was \$200,000 and the LOMR was for Little Bear Creek.

Laguna Bay, Pelican Bay, TX – Project Manager for the \$2 M, 51 Lot subdivision. This project included annexation, streets, drainage, water, sewer, mass grading, canal design, dredging, COE 404 Permit, and floodplain reclamation. This project is on Eagle Mountain Lake and required significant coordination with Tarrant Regional Water District.

Marina Pointe, Southlake, TX – Project Manager for the \$1.1 M, 57 Lot subdivision. This project included streets, drainage, water, sewer, 2 lift stations, mass grading and floodplain reclamation. The total storm drain cost was \$175,000 and the LOMR was for Eagle Mountain Lake.

Experience:

Baird, Hampton & Brown, Inc.: 2008
Years Prior Experience: 26

Education:

Tri-State University / Bachelor of
Science / 1981 / Civil Engineering

Registration:

1986 / TX / Civil Engineer / 60119

TxDOT Pre-Certification:

- 3.1.1 Route Studies & Schematic Design – Minor Roadways
- 3.2.1 Route Studies & Schematic Design – Major Roadways
- 4.1.1 Minor Roadway Design
- 4.2.1 Major Roadway Design
- 10.1.1 Hydrologic Studies
- 10.2.1 Basic Hydraulic Design

Professional Organizations:

ASCE, Texas Floodplain Managers
Association

Bio:

Kevin Millers' experience includes a position as the former Assistant. Public Works Director and Floodplain Manager for the City of N. Richland Hills along with over 25 years as a consulting engineer.

As former Chairman of the TX Floodplain Managers Association, Mr. Miller has been involved in the development of many of the floodplain management standards used today.
